📍 São Paulo, SP - Brazil

🌐 /in/guilhermeguain/

Developer since 2012, with experience in React.js, Next.js, TypeScript, Node.js, Tailwind CSS, Styled Components, Git and Jest.

I also have experience with Scrum, technical SEO, WordPress, Strapi, GCP, CI/CD and GitFlow.

Experience

iFood

Software Engineer - 01/2025 ~ present

I contribute to the maintenance and evolution of an application developed in React.js. My work is focused on guaranteeing the quality, functionality and user experience of the system.

Gobrax

Front-End Developer - 07/2024 ~ 12/2024

I supported and maintained a React.js application, fixing bugs, improving functionality and ensuring its efficiency and usability.

Toxicologia Pardini

Full Stack Developer - 08/2018 ~ 12/2024

I have developed projects aimed at optimizing websites for SEO, solving problems and proposing innovative solutions to improve the user experience and results.

Amo Promo

Front-End Developer - 01/2023 ~ 04/2024

I've developed and improved web applications with React.js and Next.js, contributing to component libraries and unit tests with Jest.
